H. G. FARRELL'S GENUINE ARABIAN LINIMENT is a most extraordinary medicine, the truth of which is placed beyond doubt by the vast sales of the article and the many cures being daiy performed by it, which previously had resisted all other medicines and the skill of the best physicians in the world. It is composed of balsams, extracts and gums peculiar to Arabia-possessies, il a concentrated form, all their stimulation anodyne, penetrating, unctuous and revulsive froperties, and the same which, ages ago, we used by the "Sons of the Desert," with son miraculous success, in curing the disease or both man and beast. Read the forming remarkable cure, which should of

far beyond any similar remedy. Mr. H. G. Farrell-Dear Sir: Actuated by sense of gratefulness, I submit the following as an nstance of the utility of your great medicine. My child, three years old, was suddenly attacked with a terrible disease, which in less than six hours prostrated it to total helplessness. The limbs became so rigid that not a joint could be bent; the flesh turned black and cold and entirely deprived of feelling; the eyes fixed, partially closed and altogether blind, following this was deafness to all sounds; th spine became contracted and so covered that when lying on its back the head and heels only touched. Indeed, the child presented every appearance of Is served to City Subscribers at one shilling a week being dead. Immediately on the attack, the family and sent by mail a \$6 a year, in advance. physician was called in, and for three weeks he All Turkish war vessels on the coast of Asia | labored to restore it to feeling, but all in vain, although it was blistered a dozen times and various rubefacient Liniments applied. A consultation of physicians was then held, but to no purpose, the case was then brought before the Medical Society, but nothing could be suggested which had not already been done, and the doctor then told me that he could do nothing more. We then commenced sane from the excitement. Her children ar- applying your Liniment freely over the entire length of the spine, and you may imagine a parent's joy, when, after a few applications, returning animation was apparent, and it rapidly recovered with the exception of the sight, which did not become perfect for near a menth. The child is now healthy and robust as can be. Five other cases of the same kind occurred previously in my neighborhood, all of which died, when there is no doubt if your Liniment had been used they would have recovered. 2-41 3t Peoria, March 1st, '51.
